

Upholstery fabrics complete Vescom US collection

High performance, high design

Press Release

Deurne, April 2019

Vescom introduces its upholstery fabrics in the US for the very first time. With two of our three product groups already available in North America – wallcovering was launched in September 2018, and curtain fabrics in March 2019 – the release of upholstery fabrics completes the Vescom picture.

Function meets beauty in Vescom's stylish yet durable upholstery collection. Featuring 70 patterns in more than 1,300 colourways, Vescom's range of fabrics includes a diversity of structures and characters to suit any and every situation. Stand out or blend in.

Users are invited to create playful combinations of tone and structure – both within the upholstery collection itself and in conjunction with our wallcovering and curtain fabrics, thanks to visible connections between our entire portfolio.

Koroseal is the exclusive distributor of Vescom's wallcovering, curtains and upholstery fabrics in North America. Distribution is aimed at architects and designers working in the contract market.

Vescom develops, produces and distributes high-quality interior products for the international contract market: wallcovering, upholstery and curtain fabrics. Vescom stands for high quality. When it comes to technology, design and service. Distinctive designs and sustainable materials form the basis of our collections. Products produced by Vescom are used in the contract market: primarily in the hospitality, healthcare, office and education sectors.

In addition to the head office in Deurne (the Netherlands), Vescom has a widely branching network of Vescom sales offices. In Europe, Asia, the Middle East, Latin America and the United States of America. Vescom works with distributors in other parts of the world. Vescom (1971) is part of the Vescom Group.
